Introduction

My name is **Dyontai Staton**. Born, raised, & reside in **Louisville Kentucky**. I've been in the developmental world for just over **6 years** now. My Career started when I was 12, creating small 2D platform games using C# to play with my brothers. From there I continued down this path into **E-Commerce** and **Web Development** about 3 years ago and started creating & selling numerous eCommerce sites. Starting in April last year I created a team of developers to service **Large & Small Businesses** creating & managing their **Online Presence**. I've done everything from **Designing Sites** through Figma to **Cloud Deployment** of a node server.
